Standard Round Spoke

Twisted Spoke

SPOKE KITS

**1936-1996 STEEL SPOOL
and
1997-2007 ALUMINUM SPOOL**

Almost considered the universal Harley® hub as it is used on almost every Harley® built since 1936. It is used on the front and rear of both the FL series and the FXWG, on the rear only of all FX's & XL's made after '55, and the Harley® 45 rear.

HEAVY DUTY 5-8 ga. SPOKES - We had been getting requests for a spoke kit that is heavier than the standard 6-8 ga. For those of you that have a problem breaking spokes in the rear wheel, we have the solution - Heavy Duty 5-8 ga. spokes.

STANDARD DUTY spoke kits come with 6-8 GAUGE spokes and [.281 nipples](#)

HEAVY DUTY spoke kits come with 5-8 GAUGE spokes and [.281 nipples](#)

Please Note: Rear wheels must still be torqued to 80" lbs.

16" x (3.00) H-D Deep Drop Centre Steel Rims

Part No.	Description
BU-KHD201SS	Stainless spokes and nipples
BU-KHD211SS	Stainless spokes and nipples – Heavy Duty
